## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 5-9 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should not depend from multiple dependent claims See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lee (US6852953).

Lee discloses a roasting oven comprising a housing (12), a door (11), a chamber (15), a heater (13), a power supply switch (Figure 1), heating tubes are in chamber (Figure 1). Lee does not disclose rotating tubes. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have included rotating tubes as a means to cook food more uniformly.
